FROM THE STATE

supports students & programming for Inclusive Postsecondary
Education in Georgia

Our Budget Ask for FY2022:

We are asking for an additional \$567,157 within the Georgia Council on Developmental Disabilities' IPSE FY22 funds, which would include the Governor's proposed reinstatement of the \$67,157 cut from last year's budget in addition to \$500,000. These funds will offset the financial impact seen by the IPSE programs and families as a result of GVRA's policy change.

* Academic Transition Teachers are critical to the success of IPSE programs!

Academic Transition Teachers:

- set student's course of study to align with realistic career goals
- modify curricula to integrate universal design for learning across multiple disciplines
- ensure students are ready for real jobs upon graduation

Excel Program at Georgia Tech

"[My son's] a different person than he was two-and-a-half years ago. He's surpassed every goal and he's happier than I've ever known him to be."

— Rhonda Taubin

Rhonda's son Drew is a fourth-year student at Georgia Tech's EXCEL program. Drew has an internship with Hotel Indigo's IT Department.
